**FOR IMMEDIATE RELEASE**  
**February 2015**

## **LEMO® Exhibits Their Latest Medical Connector Solutions at MDM WEST, Booth #1859**

**Rohnert Park, California, USA** — LEMO ([www.lemo.com](http://www.lemo.com)), a global leader in the design and manufacture of precision custom connection solutions, will be demonstrating their latest connection solutions for critical medical applications in Booth #1659 during [MDM WEST](#), Anaheim, CA, February 10-12, 2015. LEMO will be exhibiting their latest in medical connector products including the REDEL® Single Patient-Use Connectors (disposable) plastic push-pull connectors and their newest watertight connector, the [LEMO OT Series](#).

LEMO's OT Series is a watertight, small connector that was based on LEMO's popular B Series. The OT series includes a special construction inner-sleeve along with extra sealing to enable IP68 water protection. This connector is available in 2 to 9 contact configurations as is backward compatible with the B Series.

Earlier this year LEMO acquired [Northwire Inc.](#), a wire and cable manufacturer, who will be displaying their solutions in booth #3391.

To complete the connection solution, LEMO also offers custom cable assemblies. LEMO's experts will be in the booth and available to work with you on your specific applications.

### **About LEMO**

LEMO is a global leader in the design and manufacture of precision custom connection solutions. Their high quality push-pull connectors are found in a variety of challenging application environments including medical, industrial control, test and measurement, audio-video, and telecommunications.
